Environmental Violence and Galician
Post-Francoist Modernity: Reservoirs,
Language, Testimony

Dr Helena Miguelez-Carballeira
(Bangor University)

This seminar will explore how the processes
of de-ruralization in contemporary
Galicia are being registered in the cultural
sphere through the notion of trauma as it
relates, in particular, to environmental
violence. Two recent films about reservoir-
building: *Crebinsky* (Otero, 2011) and *Os días
afogados* (Souto and Avilés, 2015) will be
considered.

All welcome. Admission free.

Coordinator: Dr Fede López-Terra
